

WE FINALISE YOUR IDEAS!

Photovoltaic modules represent the future in terms of mass energy generation without burdening the environment. However, for this solution to give satisfactory results, it requires proper installation.

Final S.A. offers technologically advanced, complete systems for mounting photovoltaic modules and guarantees professional technical and commercial support.

Advantages of aluminium photovoltaic fixings:

- Easy and quick installation.
- Profile finishes available: raw, anodised, painted in any RAL colour.
- They are manufactured from alloys with a low carbon footprint, thus reducing the negative impact on the environment.
- An environmentally friendly solution - aluminium is 100% recyclable.
- The fixings are manufactured in accordance with the PN-EN-515, PN-EN-573 standards.
