MOCOWANIA FOTOWOLTAICZNE

FINALIZUJEMY WASZE POMYSŁY !

Moduły fotowoltaiczne to przyszłość w dziedzinie masowego pozyskiwania energii bez obciążania środowiska naturalnego. Aby jednak to rozwiązanie dawało satysfakcjonujące rezultaty, wymaga właściwego montażu.

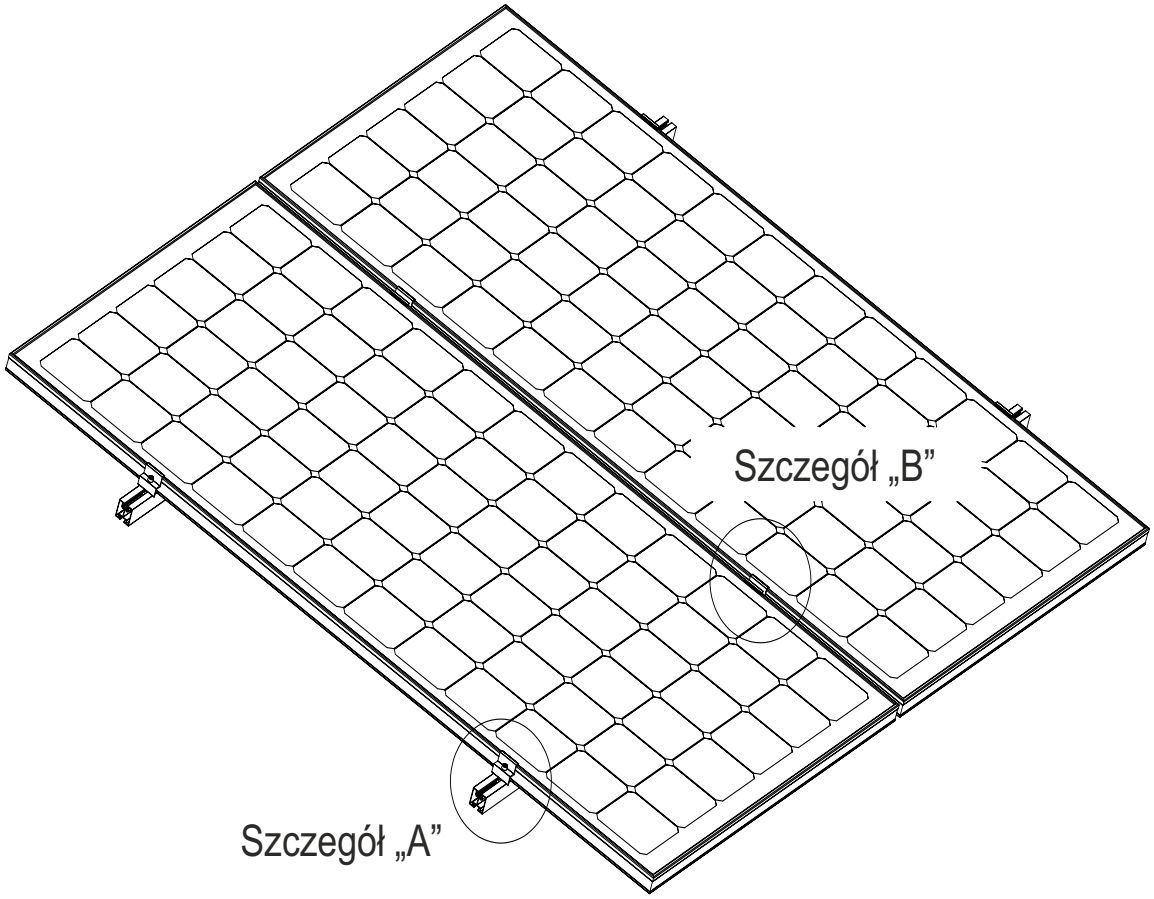

Final S.A. posiada w swojej ofercie zaawansowane technologicznie kompletne systemy mocowań modułów fotowoltaicznych, gwarantuje też profesjonalne wsparcie techniczno-handlowe.

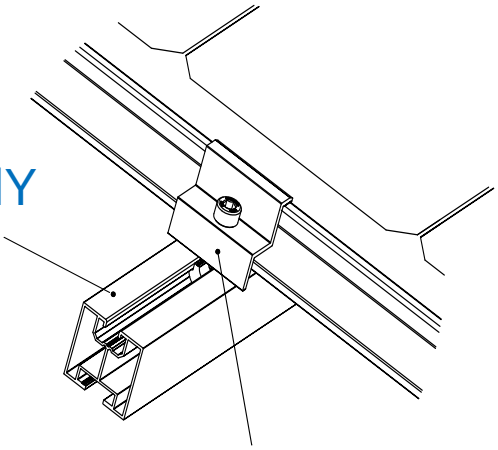

Zalety aluminiowych mocowań fotowoltaicznych:

- Łatwy i szybki montaż;
- Dostępne wykończenia profili: surowe, anodowane, lakierowane na dowolny kolor z palety RAL;
- Produkowane są ze stopów z niskim śladem węglowym, dzięki czemu redukowany jest negatywny wpływ na środowisko naturalne;
- Proekologiczne rozwiązanie - aluminium w 100% podlega recyklingowi;
- Mocowania produkowane są zgodnie z normami PN-EN-515, PN-EN-573.
