

WE FINALISE YOUR IDEAS!

A fence not only separates a private space from the external surroundings, but it can also be a spectacular finial of an investment, giving it character and raising the prestige of the whole project.

Final S.A. offers its customers modern solutions made of aluminium, which thanks to their properties guarantee durable and long-lasting functioning of fences.

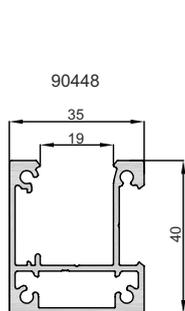

Advantages of aluminium fencing:

- Unlimited freedom of colour choice between RAL colours and wood-like coatings.
- Easy and quick assembly.
- Low weight of spans enhancing the impression of lightness.
- Made from almost 100% recyclable materials.
- Possibility to produce bays in individual dimensions.
- Profiles available in widths from 80 to 200 mm.
- Maintenance-free.

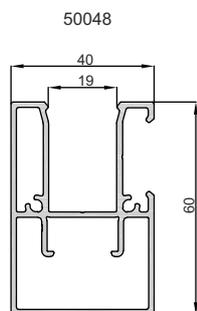

For assembly of the infill, use self-tapping sheet metal screws DIN 7981 or DIN 7504N: ST3.9 or ST4.2 (max. screw head height: 3.1 mm).
